

MAGIC 8-BALL

Today we'll be creating a magic 8-ball toy that answers your deepest questions with random (and sometimes ridiculous) responses to yes/no questions. Just say a question like "Magic 8 ball, will we have pizza for dinner tonight" and click the ball to activate and get your answer. You can use your own graphics, but we recommend you use the [Magic 8-ball starter file](#), which contains all the graphic you need to make Mr. Tomec's version of the game.
